### Board Of Trustees Chairman's Message :

It is a great pleasure that KEAN is being led by a group of enthusiastic visionaries. Our organization flourished to this level today because of the tireless work and guidance of our past leaders of this organization. Our organization always promoted new initiatives that is worth while. This year, I hope that we can proceed with the "Entrepreneurship Promotion" initiative. As the Board of Trustee Chairman, I will continue to fervently support the new leadership and all of the KEAN's activities.

Jain Alexander  
BOT Chairman

### PRESIDENT'S MESSAGE

I am extremely happy to see that the first issue of our KEAN Newsletter is published today in connection with Queens- Long Island regional meeting. This is our first event of the year and I am sure we have an exciting year ahead with lot of activities. I request everyone's cooperation and support to make this year's activity a grand success.

We can be proud of the fact that we are able to continue our vision and goals. Let us continue with the noble things we do, and aim for accomplishing more. We have a highly talented group of engineers who can play very important role in fulfilling our vision. Let us support them, and concentrate more in helping engineers and engineering students in US in their professional development and career needs.

With the support of KEAN members and well-wishers, I am optimistic; we can scale any heights.

Lizy Philip  
President
